<b>Printing Performance</b> 1-3 lines (7X5matrix) 1-4 lines (5X5matrix) Maximum speed=450m/min@5X5	<b>Nozzle</b> 60 microns
<b>Font matrix</b> 5X5,7X5,9x7,12X9,16X11,19X14, 24X17	<b>Umbilical length</b> Super soft, length 3m
<b>Character Height</b> 1-15mm,depending on the font	<b>Printing direction</b> 360° all-round printing
<b>Printing Distance</b> 2mm to 30 mm Best : 10mm	<b>Cartridge volume</b> Ink (500ml) Make-up (750ml)
<b>Inkjet character</b> English, Arabic numbers, bar code, serial number, automatic date, use- defined characters, special logo,2D bar code(Data Matrix ,QR Code)	<b>Temperature/Humidity range</b> 0-45°C 0-95% relative humidity, non-condensing
<b>I/O connection</b> Ethernet,USB,R485	<b>Power</b> AC100-240V 50/60Hz 60VA
<b>Memory space</b> 1000 messages	<b>Net weight</b> 17KG
<b>Industrial protection</b> IP65	<b>Dimension</b> 397X314X454mm

### New Innovative Nozzle

Integrated injection molding, prevent ink leakage risk  
More compact design, simplify parts replacement

### Smart Ink System

Efficient ink usage, more cost-effective Smart cartridge design, plug in error alert Perfect sealing prevent contamination

### Economical Eco Consumables

Plug&play, easy to use  
Superior print quality, meet various demands  
Eco, fast dry&high adhesive ink ensure longer usage life

### Easy to Use

Easy to operate, no need any user manual  
More compact ports, suitable for integration  
Auto adjustable function of viscosity, ensure stability

\*Touch screen | new UI | new editor | new interactive newsletter |  
Linux system supports more custom development

### Unique Design

Ip65 dust-proof architecture  
Ultra quiet feature, no noise  
Filling ink automatically to start up, more smart

### Superior Performance

Integrated ink core design, life time up to 6000 hours  
Auto-nozzle cleaning function, ensure quick start up  
More suitable for industrial working environment
